Novelio® Nature

Sublimez vos murs

Let the wall impress

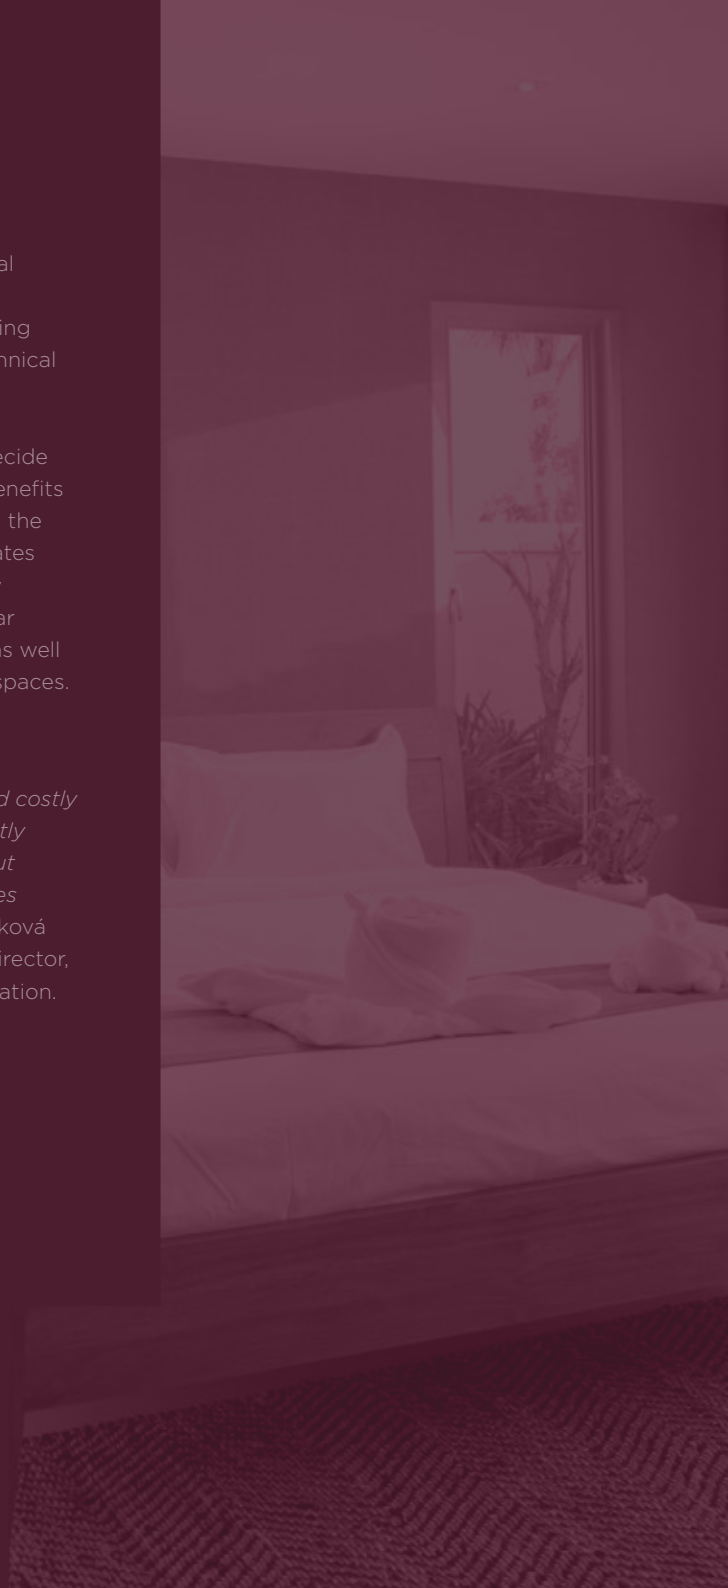

La gamme **ADFORS Novelio® Nature** répond aux critères d'esthétisme haut de gamme, de durabilité et de résistance pour les bâtiments. C'est l'alliance entre les performances techniques assurées par les propriétés mécaniques de la fibre de verre et l'élégance des motifs, qui apporte son originalité et son aspect contemporain et intemporel. C'est à vous de décider et de choisir parmi nos 6 modèles. L'utilisation du textile en fibre de verre crée un système de protection des murs très fonctionnel avec un aspect décoratif autant adapté aux logements privés que pour résister à l'usure élevée dans les locaux soumis à fort trafic tels que les bâtiments publics, les hôtels et restaurants, les établissements de santé, l'immobilier de bureau, les établissements scolaires, les centres commerciaux.

"**ADFORS Novelio® Nature** *est une nouvelle génération de revêtements muraux qui allie technicité et esthétisme. La gamme Nature est non seulement facile à installer mais l'utilisation de fibre de verre lui confère une protection supérieure sans compromettre sa finition élégante.",* Martina Vlčková Říhová, ADFORS Marketing & Affaires Directeur du développement, commentant le produit comme une autre innovation ADFORS.

ADFORS Novelio® Nature wallcovering range is the ideal solution for buildings that need to achieve high-end aesthetic appeal balanced with durability and outstanding environmental properties. It is the alliance between technical performances assured by mechanical characteristic of glass fibre and elegance, which brings its originality and contemporary or timeless look. It is up to you to decide and choose one from our 6 patterns. With numerous benefits to this product range, we talk about a real innovation in the market. The use of the innovative glass fibre textile creates a highly functional wall protection system with not only a natural feel, but mainly suitable to withstand high wear and tear in both residential, hospitality developments, as well as schools, healthcare facilities, and commercial office spaces.

"**ADFORS Novelio® Nature** *is simply a next generation wallcovering range that lets your wall impress. There is a misconception that wallcoverings are complicated and costly to install and that they cannot be functional and elegantly designed. The Nature range is not only easy to install but the use of glass fibre gives it superior protective qualities without compromising on its stylish finish.",* Martina Vlčková Říhová, ADFORS Marketing & Business Development Director, commenting on the product as another ADFORS innovation.

Instructions

The wall must be clean (no dust, dirt or grease), dry, even and primed.
Temperature should not be below 8 °C.

1. Cut to length according to room height (+10 cm).
2. Apply the dispersion adhesive evenly on the wall using a roller (~150 g/m²).
3. Place the wallcovering panel on the wall vertically and smooth it with a plastic spatula.
4. Place the adjacent panel edge to edge (respect vertical pattern repeat). Clean excess of glue at the joint with a clean tissue. Repeat steps 1, 2, and 3 with other panels until you have finished the room. You can also use the double-cut technique.
5. Cut off any surplus with a knife.

The glass fibre fabric is carefully checked before leaving our factory but should also be checked again just before hanging.
Any claim should be accompanied with roll label and a sample featuring the defect.

p: Sandbank

Les propriétés CleanAir

Profitez d'un air intérieur assaini. Les revêtements muraux ADFORS Novelio® Nature intègrent la technologie CleanAir qui améliore la qualité de l'air. Ils absorbent et neutralisent les polluants qui se trouvent dans l'air en les emprisonnant de manière permanente.

Enjoy CleanAir

Inhale fresh air and feel full of life and vigour. ADFORS Novelio® Nature wallcoverings feature CleanAir technology, to make indoor air fresher. They absorb and neutralize contaminants that escape into the air, and permanently clean it of any such taint.

CONCRETE

–

l'élégance urbaine. Un aspect rugueux inspiré des minéraux.

Appliqué sous forme de panneaux ou dans sa continuité, sans les joints visibles ? À chacun ses envies.

Pour plus d'informations sur l'application double coupe (pour des joints invisibles), visitez notre chaîne YouTube / site web.

CONCRETE

–

the essence of the city. Straight lines and rough-hewn structures.

Do you prefer visible joints for a panelled effect or seamless 'double-cut' joints ? It is purely up to you to decide...

For more info about the 'double cut' technique (for seamless joints) see our YouTube Channel/site.

ADFORS Novelio® Nature

Wallcoverings made of glass fibre are much more hard-wearing than those made from many other materials, so you can enjoy the timeless elegance of **ADFORS Novelio® Nature** for much longer. Thanks to their special qualities, these wallcoverings are perfect for any space where people want to feel special: living spaces, retail, hospitality, offices, schools, health care.

LET THE WALL IMPRESS

It is not only Nature we propose to you though. You can also choose from various other highly decorative or tailor-made glass fibre wallcovering solutions in our **ADFORS Novelio®** range – from classical paintable styles to painted, pre-painted, pre-glued and magnetic solutions to save your time. The choice is yours but all their qualities are guaranteed by us – the SAINT-GOBAIN ADFORS team.
