Novelio®

Paintable Wall Coverings

Say goodbye to cracks in your walls with the Novelio range of designer wall-coverings from Saint-Gobain

SAINT-GOBAIN

Novelio®

Paintable Wall Coverings

Turn your wall into a masterpiece of durability and elegance.

Discover the remarkable advantages of Novelio® - an exclusive range of high quality paintable wall coverings. Novelio® has been specially developed by Saint-Gobain ADFORS and is the perfect solution to dress walls in elegance while reinforcing and keeping them strong.

Novelio® is an extremely durable wall covering that's essentially a fabric woven from glass yarn in an array of attractive patterns. After preparing the walls, Novelio® is pasted on and can be painted and re-painted with the colours of your choice.

What makes Novelio® an ideal choice for your walls?

Novelio® Wall Coverings are made from glass fibres which actually reinforce your walls with their high tensile strength, robustness and resistance to damage. As a result, your strengthened walls look stunning and as good as new for decades.

Novelio

Paintable Wall Coverings

Benefits with Novelio®

Crack Prevention

Glass Fibre Wall Coverings ensure neat surfaces. They reinforce & cover existing cracks & help prevent new ones. They reduce wall maintenance & always provide an excellent substrate for painting. They are therefore the ideal choice for renovating buildings.

High Impact Resistance

Glass Fibre Wall Coverings can withstand much greater force than almost any other wall coverings. They reinforce the wall & protect it against heavy impact and any resulting damage. Thus they maintain a perfect surface for years.

Hygienic

Glass Fibre Wall Coverings provide the ultimate safeguard against dirt, stains and bacteria. Glass is inorganic and does not provide a breeding ground for growth of micro-organisms. They withstand aggressive maintenance and can be cleaned, quickly and easily. They can be scrubbed, disinfected and decontaminated without causing surface damage.

Long Service Life

The extremely long lasting life cycle of Glass Fibre Wall Coverings offer more than 20 years of unrivalled cost effectiveness and customer satisfaction.

Repaintable function

Repaintable unlike conventional wall paper.

Vapour Permeable

Glass Fibre Wall Coverings are woven fabrics & therefore are vapour permeable which means they can breathe. While vinyl wall coverings aggravate the problem of damp walls, glass fibre wall coverings allow the underlying moisture to escape, thus preventing paint peeling, flaking, mould, fungi & bacteria formation.

Fire Proof

Glass Fibre Wall Coverings are certified to have very low flammability as they are made of glass. Glass melts at 1300 C but does not burn. Moreover, it will not emit any noxious gases even under fire conditions.

Eco-Friendly

Novelio® products are ecologically sound and certified by Oeko-Tex, Standard 100, Class 1 which guarantees that it cares for your health and environment. They are completely safe and present no health hazards.

Novelio

Paintable Wall Coverings

Glass fibre wall coverings that combine beauty with strength

Novelio® Wall Coverings are preferred for:

- Hotels/Restaurants
- Malls/Shops
- Hospitals/Doctor's Operation Theatres, Museums/Galleries
- Offices/Educational Institutions, Residential/ Commercial Premises

Novelio® Range

- Classic: Woven & non-woven patterns
- Decoration: Florentines, Exclusive & Frises
- Clean Air: Absorbs VOC permanently
- Mold-X: Stops development of mould & bacteria
- Thermal: Increases the thermal comfort in the room
- Renovation: Hides undulations on walls
- Acoustic: Acoustic comfort in your room

Note: Pre-painted, pre-glued & self-adhesive wall coverings are also available

• Prepare the wall by filling the surface irregularities.

• Rub down with sandpaper and prime the wall.

• Apply the specified vinyl glue on the wall evenly with a roller/brush.

• Apply the wall covering & smoothen it.

• After the glue has completely dried, apply two coats of quality paint.

Once installed and painted, the surface can be repainted over & over, without any further surface preparation. This makes repainting quick, smooth & hassle-free. Novelio® is a one-time investment for strong, beautiful & long lasting walls.
